

Nikita Chaturov

Infrastructure Engineer

Kazan, Russia · nikchester01@gmail.com · <https://t.me/Chesterf1ld> · <https://github.com/Chest3rf1eld> · <https://www.linkedin.com/in/nikita-chaturov-8625a5281/>

Profile

Infrastructure Engineer with hands-on ownership of Linux production infrastructure: servers, virtualization, networking, deployments, monitoring, backups, security hardening, incident troubleshooting, and documentation.

Currently the only infrastructure engineer in the company, managing 15+ servers and VMs across 4 providers, an internal Proxmox VE environment, and infrastructure for 170+ websites.

Core Stack

Linux, Debian, Ubuntu, Proxmox VE, Docker, Docker Compose, Ansible, Bash, Python, Nginx, HAProxy, MikroTik, WireGuard, DNS, Prometheus, Grafana, Loki, Zabbix, MySQL/MariaDB, PostgreSQL, GitLab CI/CD, Yandex Cloud.

Experience

Wclik - System Administrator / Infrastructure Engineer

Jan 2024 - Present, Kazan

- Own Linux servers, VMs, networking, monitoring, backups, access control, and documentation.
- Build Ansible playbooks and Bash scripts for provisioning, SSL, domain setup, migrations, permissions, and routine operations.
- Maintain monitoring and alerting with Prometheus, Grafana, Loki, exporters, and Zabbix.
- Administer Docker services, Nginx/HAProxy reverse proxies, GitLab, GitLab CI/CD, PostgreSQL, MySQL/MariaDB, DNS, VPN, and Proxmox VE.
- Investigate incidents from symptoms to root cause and document recovery steps.

Selected Work

Monitoring Stack as Code

Ansible roles and playbooks for a small distributed monitoring stack: Grafana, Prometheus, Loki, Promtail, blackbox_exporter, nginx TLS, and nftables firewall rules.

Bulk Web Infrastructure Automation

Bash tooling for operating many HestiaCP/WordPress sites: SSL, redirects, migrations, permissions, plugin/cache maintenance, PHP backend changes, and backups.

Production Incident Mitigation

Investigated abusive traffic against a public service that exhausted external API limits. Added request/IP correlation, SmartCaptcha, rate limiting, queueing, and fail2ban. The abuse stopped and diagnostics became clearer.

Education

Kazan National Research Technical University named after A. N. Tupolev - KAI, Information Systems and Technologies, expected 2028.

KTK KNITU, Applied Informatics, Programmer Technician, 2023.
